

CYAN KONTAKT SERIES | PADS EDITION ONE

Requirements:

NI Kontakt 5.0 (or higher)

when using free „Kontakt Player“, the instrument will expire after 15 minutes of use (Demo Mode)

Installation:

Copy the folder to your haddisk and open the NKI-Files from the menu „Files > Load...“

The image shows the user interface of the Cyan Kontakt Series Pads Edition One instrument. The interface is dark blue with yellow and white text and controls. At the top, there are three yellow boxes with labels and MIDI CC numbers. Below these, the interface shows various controls including a filter section with Gain, Cutoff, and Resonance knobs, and two envelope sections (Filter and Amp) with Attack, Decay, Sustain, and Release parameters. At the bottom, there are two more yellow boxes with labels and MIDI CC numbers for the envelope parameters.
